#1

She has long raven black hair which flows down her back, and her bangs are shaped into a V. Her eyes are a bright green and she has rooted eyelashes. Her lips are vibrant red. Her legs do not move.

#2

She has long brown hair and light brown eyes. She has holes for earrings. One hole has part of an earring broken off in it. There is some wear at the tops of her legs where they meet the torso. Has some fingernail polish still. I see no pin pricks at feet. Has a split on back of both legs.

#3

She is nude except for pearl stud earrings.  
She has gorgeous eye makeup, wonderful  
bright red lips and matching red  
fingernail/ toenail polish.

#4

Her hair falls just past her buttocks. It is very pale, almost platinum, with a light bronze streaking. Her eyes are a light blue shade and lips are dark maroon. She has a light complexion. Her fingernails are painted pale blue-green. She is nude.

#5

She has very detailed eye makeup and features, wonderful bright coral lips, piercing blue eyes and a beautiful facial expression. Her neck has unusual mobility, allowing her head to move up and down as well as from side to side.

#6

Her hair is smooth and shiny with no tangles, frizzies, matting or missing plugs. She has white earrings and ring. She has no ink or bite marks.

#7

She has a dark spot on the back of her hair and her hair is a bit messy. She also has a black tiny spot near her eye in the corner and a faint mark on her face, but overall she is in good condition for her age. No green ears but the earring holes are there.

#8

She has no nose nips, no neck splits and no missing hair plugs. She has earring holes but no stains. In addition, one ear has one extra pin prick and the other has four. Her legs are stain free. The right leg is not tight at the hip. The left leg has some pin pricks at the ankle and three more not shown on the other side of her foot. She has retouched nail polish. She has no missing digits or significant stains.

#9

Her lips are a more dark coral/orange colour rather than the normal bright red lips. She has no green at ears. Her body is in good condition. She does have a scratch under one arm and a blue mark at the top of one leg.

#10

She has full, sunny lemon yellow blond hair, and good coloring with no pale spots. No green anywhere, no neck splits, or nose nips. No missing fingers or toes.

#11

A gorgeous beauty with black hair, medium complexion. She has caramel complexion, brunette hair / w bangs and pink streaks , brown eyes w/ complementing taupe shadow dark liner, and lips that are finished in a orange lipstick.

#12

Her body is lovely with no greening, pin pricks, scratches, or cuts. Her legs are attached and knees click to position. Her feet and toes are in great condition. Her arms are tight and hold their position. Her head has no earring holes or green ear. Her hair is a beautiful light blonde color, full with no missing plugs. Some scratches, very minor discolor, joints still tight. Her knees do not click at any bending position; in my opinion they are broken.

#13

Her red (oxidized) color bubble cut rooted hair is nice and full. She is high color with a very beautiful face. Turn n twist waist. She is wearing a very lovely outfit with blouse, skirt, pantyhose, and white squishy boots. Both her legs click 3 times and hold a pose. And her fingers and toes are in excellent condition. But she does have some bites on her feet and 1 very small on her finger.

#14

Her hair is near perfect with no missing plugs or trims. Her eyes have beautiful makeup and her brows are perfect with no fading. Her lips look great. She has no green on her ears, no earring holes and no neck splits or nose nips. She has some pinpricks on her left cheek, scratches near the left side of her nose, a scratch near her left eye and a couple of nicks on the left side of her chin. A nick above her right eyebrow. Almost all defects are on the left side of her face for some reason.

#15

Her hair has some missing plugs in back but no cuts. There is a very small nick on the right side of the face and a mark on the right eye. She has several chews on her feet. She has no neck splits. There is no sign of green on her ears. The left leg is swingy, the right is tight.

#16

She no nose nips, and no neck splits. She does have some missing hair plugs. They are all on the bottom row and in the back. The area missing hair runs from the back of one ear around to the back of the other ear. She has one super neatly made and neatly placed shallow earring hole per lobe, but no discoloration. She has a goldish spot and some scratches on her back torso at the left arm socket.

#17

Her head is beautiful with chin length uncut nutmeg brunette hair with full plugs, full coral peachy lip paint, dark eyebrows and a small bit of wear to her eyelashes. She has a very excellent clean body free of soil and hand oils and has a powdery feel to it. The joints are very tight, the left foot bends inward a tiny amount, has 90 percent of her finger nail polish and does not have any marks or chews. So the body is in very excellent condition.

#18

She has auburn hair, blue eyes, and an open mouth with pale pink lipstick. Her hair is a little thin on top, but there is plenty of hair to cover it. No plugs are missing but several are thin. Otherwise she is in very good condition, ink marks, no chewed places.

#19

The haircut is pretty choppy and bad with some very, very short hair chopped in some places. No neck splits. No earring holes. No green ear. Her legs are tight at the hips. Her arms are tight at the shoulders. She has about 70 percent of her fingernail polish. None on her toes. No chews or bites on her hands. But she does have bites or pin pricks on both her ankles and feet.

#20

She looks to be in good shape for her age.  
Head has no split neck or green on it. She  
has all her fingers and toes. Knees DO  
NOT bend.

#21

She has big, beautiful blue side-glancing eyes with blue eyeliner, smokey eye shadow, black eyelashes, and blond eyebrows, full red lips, red dots in nostrils, and red-painted fingernails and toenails. The red on her fingernails is still mostly intact, but has faded quite a bit off of her toenails. There is a tiny rub spot on her bottom lip that's missing red. There is NO green around her ears, however the holes are a little bigger than originally. Her limbs and head are still nice and tight and in good working order with no neck splits. Her hair still looks great, but does have at least one plug out near the hairline on her neck.

#22

She has some stray lashes. Her hair appears intact but needs to be recombined and some restyling. She has numerous pinpricks on her left arm and several on the right arm, other blemishes on all parts of her body, hands have nicks. Right knee is broken inside and does not click, skin is not broken.

#23

Her hair does not appear to be cut or missing any plugs. Her makeup is wonderful—beautiful eyeshadow and mascara with pale pink lips. Her fingernails are all polished and all 10 toes are intact.

#24

She has very dark brunette hair. She has a few pricks around each ear, but no green. No neck splits. There is a tiny/faint bite mark on the end of her nose. There is a tiny/faint smudge of red on one side of top lip. Eyebrows have minor flaws, but are very nice overall. Torso has some superficial scratches from play—one breast has a prick/dent/scuff. Arms are tight. There is a bite mark that affects two fingers on one hand. All fingers are intact and some red nail-polish remains. There are a few faint discoloration spots on legs.

#25

Her hair appears uncut. It is soft and shiny. It is in a braid. There is a rubber band around the top knot, the band is dry and cracking with age and there are some hairs sticking out of it. There is some wrinkling or creases on her right front and left rear legs near the hip area. There is one tiny black spot on the bottoms of each of her feet. No neck splits. She does have some green ears, the worst of which is the right ear. Her left ear is not as bad, just a hint of green directly behind her pearl earring.

#26

Hair is shiny, but she does have some flyaway hairs. She has no haircuts, trims, re-root, missing or thinning plugs. She has no green ear with NO earring holes. She has no nose nips or neck splits. There are no pinpricks, cuts, gouges, stains or notable damage to her head or body. Her body is near perfect with no notable damage with the exception of a very tiny gouge on her left foot where the shoe strap lies (barely noticeable to the naked eye), may have a few very light scuffs due to age. Her arms, hips and head are very tight! She holds any position with no issues. She has no strange or bad odors such as cigarette smoke, mold or mildew smell. Her lovely head and body is a consistent color (no darker areas). She has all her fingers and toes. Polish is near perfect on both hands and feet.

#27

She has long hair that is rooted with two rows of plugs around the perimeter of the head - see photo. Her hair has hard curls on end and curly bangs. She has light blue eyeliner, blue eyes, red lips, and red dots at her nostrils. She has red nail polish on fingers and toes. There are very small indentations on her ears where she possibly had earrings. Her head, arms, and legs are tanner than the torso. Her arms and legs move, but are tight and do not move loosely. There is one small scratch on her back that starts at the shoulder blade and goes under the arm. Her fingers and toes are in very good condition. Her hair still feels soft, but there are a few places where the hair is woven, as if it were at one time in a braid.

#28

Her almost black brunette hair is long and full, soft and shiny. No hair plugs missing. Red lips, with brown eyeliner over her black eyeliner. She has a matte finish complexion. She has one tiny earring hole in each ear, no green ear ever, no neck splits or nose nips—she wears safe replacement gold hoop earrings. Full red finger and toe paint. She has faded evenly to a beautiful ivory fleshtone skintone—not a sickly white color, same all over. No marks or discolorations. Her stance is perfect and her limbs are all tight and hold pose.

#29

She has a pink ring and checked Nicker  
pants. Head seems a little wiggly to me.  
Bruises on legs.

#30

She has a prick at each ear with only a dot of brown discoloration. NO neck splits. Complexion is a bit darkened. Her lips have faded to a "buttercream" color. There are 2 teeeenie prick marks in the middle of lips. Her hair is thick and long.. I don't see any missing plugs. Her arms are tight. All fingers are intact (with most of nail-polish still there. Torso has a lot of scuff wear on back and breasts and there is a small slash mark on each side of waist. There are some bite marks on one foot.

#31

She had lovely makeup (two slight rubs on lower lip) and her hair seems uncut; no missing plugs that I can see. She just needs a restyle. She has no pin pricks on her legs, however there is a "blemish" on her right leg / near the ankle area. It appears the skin, at one time, bubbled and cracked. Not that noticeable and certainly does not distract from her beauty. Left foot has a slight toe nip. There is a slight crack on bottom of left foot, where the plastic in the leg has shifted.

#32

She has the most beautiful full head of oxidized hair I've ever seen. It is thick and absolutely shining. She is perfect with big brown doe eyes, rosy cheeks, real lashes and pink mouth. No neck splits, no green ear. Her body is in excellent condition as well. Her legs work well and hold three positions. Her hands are perfect with all fingers present and no chews or nicks. The only minor issues are a few pin pricks on her right leg on the foot.

#33

Her bright carrot red hair is full and thick and comes to just under her chin in a full pageboy style. No hair plugs missing. Her high color geranium red lips and her black eyeliner have received a professional retouch to enhance them — robin's egg blue shadow over her black eyeliner and full brows under her bangs with a hint of natural cheek blush. Full geranium red fingernail polish. No toe polish. Her face and all her body parts match exactly in color. She has a light, porcelain like complexion. No earring holes, so no green ear and no neck splits or nose nips. Even skintone with no marks or discolorations, no pin pricks, cuts or gashes. She has all of her fingers and toes.

#34

There is a purple cast to her hair. It photographs true red, very beautiful. Her face is great and has not yellowed. Dark pink lips and cheeks still retain their blush. Ears have no earring holes green or paling. A couple of lashes missing or bent on one eye. Brows are still deep and clear. No haircuts, good bangs, hair is extra nice and soft. She has the dark brown colored scalp; may be missing one hair plug at very back second row up covers under all her hair. All over beautiful peachy color to her body. Her legs have no splits or chews. Good toes. Good hands with some light pink polish remaining. No polish on toes. One tiny ding behind one ankle noticed under magnification.

#35

She has red head titian hair with bangs which appears uncut. No missing plugs noted; not sure if some may have thinned. She has blue eyes, brown brows, and pale butter yellow lips. She has no nose nip, no green ears, no neck splits. There is a tiny spot on lower left cheek with faint greenish stain—hardly noticeable, unless closely inspected (won't show in picture). She has all her fingers and toes and limbs are attached. Right arm is not as tight as the left arm. Her back and legs have few minor, hardly noticeable, scratches. She has a rattling sound inside her; not sure why.

#36

She has bendable legs. One hand is almost all gone, feet are pock marked, eyelashes are worn and hair is messed up.

#37

She has blond hair with brown eyeshadow. Her ponytail has its full length with an abundant amount of original curls at the bottom which apparently have not been combed out. Her bangs have an abundance of small tight curls running across and descending down her forehead, very flattering to her features. Her stance is excellent, nice and straight. She has no missing hair plugs, no nose nips, no neck splits, no extra holes in or near her ears, no pin pricks, no chewed fingers, dents or gouges. She has somehow retained a natural tan skin tone to a good portion of her body, that is: her face, arms and torso, both front and back. Only her legs have faded to a light color, (but not a ghostly white). Her hands show a slight subtle lightening as well, but it is not obvious. She does have a small bit of green ear on (her) right side, though it is pretty well covered by her earring. The left ear is much better with the affected area being very small and just at the hole.

#38

She does have brown discoloration spots and specks on a few isolated areas. The most observable are three very small light brown spots on (her) lower right side at the lowest part of the cheek and jawline. There are two tiny specks on her left jaw line descending downward where they are not easily detectable. The other observable area is on her upper chest and two light brown symmetrical spots on her back opposite each other along with some light surface scratches. Her bottom has a vertical discoloration. Within this vertical brownish area there are two miniscule specks of pale green. There is very faint streaking on both of her calves but not obvious, and there is a very pale lavender spot on her right ankle bone.

#39

Her hair appears complete and uncut. It is soft but a bit fly away, it still has its curls at the ends and in her bangs. She is missing the rubber band that holds her ponytail but it has been replaced so it still holds its ponytail shape. She is overall clean but does have very light grime on her legs and feet. There is a small light grey spot under her chin. Face makeup is very good with some loss on her eye lids and her coral pink lipstick. Her joints are tight and she will hold a pose. Pink finger and toe nail polish is at 90-100 percent. She has her pearl earrings, one is shinier than the other. No green ears or neck split.

#40

Her titian hair is in a braid. Her face is just beautiful with defined eyebrows — on these redheads many times their eyebrows are missing. She has big red lips. She has no green ears. Her titian hair has a top knot. Her body is near perfect with no stains or darkening. She has all her fingernail and toe polish. There is a little piece missing at the back of her neck. The back of the braid covers the slight indentation.

#41

She has brown eyeliner which has not turned pink or orange and even has some blush. She has great bangs that are a little thicker on one side than the other, but they look great on her. The end of her ponytail had been trimmed a little and was slightly uneven. Her body is nice and tight and she has faded to a nice color. She has a few faint spots here and there, but nothing very noticeable. Overall, very nice and has a great stance. Her torso is slightly lighter than the rest of her body. Her finger and toenail polish complete. She has no missing digits or chew marks and no bad smells.

#42

No bangs, with some flaws. Her makeup is all original. She is missing some eyelashes. She has a neck split in the back, about 3mm. Her hair in the back is thinner. I'm not sure if she has had haircuts but I think some limbs are broken. Her body is in very good condition with no pricks or bites and her legs bend. She is wearing her original panties (played with).
