There are few hams with any imagination about the hobby, who haven't occasionally wondered what it would be like to sit down at the receiver in some typical DX country, listen to the band, and then knock out a CQ or two. Perhaps just to have that unusual, to W stations, feeling of being a highly desirable contact, or maybe to get another slant on our poor old tired hobby. And I'm afraid that more than a few of us have felt just a little tired of the sport since the post-war flood of assembly line equipment and cheap KW-plus rigs in the hands of operators with plenty of signal but no technique, and little respect for, or knowledge of, the traditions and creative aspects of the hobby. But I digress.

—Jean Shepherd
