STEPHEN REID McLAUGHLIN

Puniverse

being the ingenuous
crossing of an idiom set
and a rhyming dictionary

After being sold the Big Lie by the literary branch of the academy ('Jobs await you at the end of your graduate degree, if you only professionalize!'), the alienation that results from working in IT is piffling in comparison. At least it's possible to take IT skills and use them to make relevant art (often while being paid extremely well to do so), which is more than can be said for trying to use an English degree to move in the other direction....
